

THE TRI-WEEKLY COMMONWEALTH
Will be published every Monday, Wednesday and Friday, by
A. G. HODGES & COMPANY,
At FOUR DOLLARS PER ANNUM, payable in advance.

THE WEEKLY COMMONWEALTH, a large mammoth sheet, is published every Tuesday morning at TWO DOLLARS PER ANNUM, in advance.

The Frankfort Commonwealth.

A. G. HODGES & CO., PROPRIETORS.

J. H. JOHNSON, Editor.

The Proprietors of the Commonwealth, grateful for the generous patronage which has been bestowed upon them, are determined to furnish their patrons a journal which shall be unexcelled in any of the departments which comprise a first class newspaper.

Published at the Capital of the State, it will be enabled to furnish its readers with the latest intelligence of the actions of the higher courts and of the various departments of the State. It will also contain the latest telegraphic news of stirring events, and also of the New York, Cincinnati, Louisville and New Orleans markets.

In politics the Commonwealth will be conservative, occupying a middle and antagonistic ground in reference to the two extremes. The old parties broken up, and old issues virtually dead, the vital question at present is Union or disunion. The Commonwealth is for the Union, believing it to be the greatest safeguard for our rights, as well as our most effective auxiliary in our efforts to obtain redress for our wrongs. Its conductors do not regard disunion as a remedy for any of the wrongs of the South, but rather an aggravation. It will contend for the equality of the States in the Union, and for the absolute non-interference by Congress with the domestic affairs of the States and Territories.

We shall aim to make the Commonwealth an acceptable and appropriate fraternal companion. It will contain selections from the choicest literature of the day, prose, poetry, &c.

The WEEKLY will be printed on extra double medium paper, in new and beautiful type.

Terms, in advance, for the Tri-Weekly, \$4 per annum.

Terms, for the Weekly \$2 per annum.

Fever and Ague,

from which mankind suffer over a large part of the globe, is the consequence of a diseased action in the system, induced by the poisonous miasm of vegetable decay. This exhalation is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon, the miasm lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscera and excretory organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The spleen, the kidneys, and the stomach sympathize with the liver, and become diseased. Finally, the instinct of our organism, as if in an attempt to expel the noxious infusion, concentrates the whole blood of the body in the internal excretories to force them to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the CHILL. But in this effort it fails. Then the Fever follows, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expel the irritating infusion. This time, the great excretory—the skin—is in this also it fails, and the system abandons the attempt exhausted, and waits for the recovery of strength to repeat the hopeless effort another day. In another form of Fever, and also Ague, Such constitutional disorder will of course undermine the health if it is not removed.

We have labored to find, and have found, an antidote.

Ayer's Ague Cure,

which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the body. As it should, so it does cure this Afflicting disorder with perfect certainty. And it does more, or rather does what is of more service to those afflicted with this infection. If taken in season it expels it from the system as it is absorbed; and thus keeps those who use it free from its attacks; keeps the system in health in all seasons exposed to the disease. Consequently, not only does it protect from the great variety of affections which are induced by this malarious infusion, such as Remittent Fever, Chill Fever, Dumb, or Malarial Ague, Periodical Headache, or Bilious Headache, Bilious Nausea, Anemia, Catarrh, Asthma, Palpitation, Puffing of the Spleen, Hysteria, Colic, Paralysis, and Painful Affections of the Stomach and Bowels, all of which when arising from malarious cause, will be found to assume more or less the intermittent type. This "Ague Cure" removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the excretory organs, expelling the virus from the system, and these organs by degrees become habituated to do this their office of their own accord. Hence arises what we term *acclimation*. Time may accomplish the same end, but often life is not long enough, or is so short, that the system is not able to do this. As it is at once, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of diseases which are caused by the malarious infusion, than any other which has been discovered. And it is still an important advantage to the public, which is, that it is cheap as well as good.

RESOLUTIONS.

Mr. GARDNER offered the following preamble and resolution, which were referred to the committee on Federal Relations, viz:

When Cataline was called upon by his accomplices to arm the slaves of Rome, that were daily flocking to him in great numbers, and he would succeed in overthrowing that mighty Republic; and Napoleon, the name of unbounded thought, when told to arm the serfs of Russia, and he could subdue that empire, they both refused.

Be it resolved, That this House is of the opinion that the arming of slaves against their masters would be contrary to all rules of civilized warfare, inhuman and barbarous, and would receive the just condemnation of the civilized world.

Mr. MILLER offered the following resolutions, which were referred to the committee on Military Affairs, viz:

Whereas, each State in the North, in pursuance of the practice in Europe, have Sanitary Commissions, whose duty it is to visit the various camps of soldiers within their respective districts, for the purpose of looking into the rules and regulations of each camp, the character of the food furnished, the clothing, the medical management, and all other matters of importance to the health and general well-being of the soldiers;—therefore,

Resolved, That the committee on Military Affairs inquire into the necessity of such commission, and report as soon as may be, the results of their labors, by bill or otherwise, to the General Assembly.

Resolved, That said Board, if appointed, shall act in conjunction with Dr. Prentiss, Medical Inspector for the Department of the Cumberland, who received his appointment from the Sanitary Commission at Washington.

Resolved, That the committee inquire into and report the amount necessary to be appropriated for paying said Commission.

Mr. SPARKS offered the following joint resolution, which lies one day on the table, viz:

Resolved by the General Assembly of the Commonwealth of Kentucky, That any member of this House, hereafter after offering resolutions for the independence or recognition of the so-called Confederate States, or offering resolutions, memorials, or papers for a division of the government of the United States, that it shall be good cause for expelling such member from this House forthwith.

Mr. G. M. THOMAS offered the following joint resolution, which lies one day on the table, viz:

Resolved by the General Assembly of the Commonwealth of Kentucky, That the thanks of this General Assembly be hereby tendered to the loyal and brave men of Kentucky who have volunteered to aid and assist the government of the United States in expelling the invaders from our soil.

Mr. TAYLOR offered the following resolution, which was adopted, viz:

Resolved, That the committee on Military Affairs be required to inquire into the propriety of raising a military force, not exceeding 5,000 in number, of cavalry or mounted riflemen, to be mustered into the service of the State of Kentucky; said force to be composed of such exposed parts of the State as are not protected by the presence of the troops of the Federal Government.

Resolutions upon national affairs were offered by Messrs. HUSTON, YEAMAN, HARNEY, and WOLFE, which, owing to their length, together with the fact that they were sent to the Public Printer as soon as offered, were compelled to omit. The resolutions were ordered to be printed, and referred to the committee on Federal Relations.

And then the House adjourned.

Interesting from Tybee.

A private letter, received in Washington, from an officer prominently engaged in the Tybee enterprise, says:

C. S. SHIP DOCUMENTS.

At the Anchorage, Savannah Harbor, Tybee Island Nov. 24, 1861.

The steamer Flag, Commander John Rodgers, was dispatched by Flag Officer Dupont to reconnoiter this point and ascertain the position and strength of the rebels. He did so, and on his return to Port Royal he had the honor and pleasure to add to his command, and this morning with a view to the enemy, we threw a few shells into the fortifications, but getting no reply we soon found that the works were abandoned, and we have taken possession of them. They consist of a strong Martello tower, with an entrenchment at the foot of it, over both of which the stars and stripes now float. It is a most important acquisition, as the ship channel to Savannah passes within five hundred yards.

Fort Pulaski is doomed for it is ours whenever we think proper to take it, as it is within most convenient shell range—six hundred yards.

No vessel will now leave or enter the port of Savannah without our permission during the remainder of the war.

We now hold the harbor with the three steamers—the Flag, Commander Rodgers, the Pocahontas, Captain Balch, and the Seneca, Captain Ammen—but no doubt will have other vessels sent here, and also a strong garrison, as soon as Flag Officer Dupont and Gen. Sherman are advised of the capture.

We hear, upon what we call reliable authority, that Commodore Tatnall says the rebels must abandon all their coast defenses, for after the example of firing at Hilton Head by our fleet, nothing they have erected can stand before it.

The abandonment of their strong works on Tybee Island may be considered as confirming this report. The panic throughout the Southern coast from our access at Port Royal is intense.

Savannah is nearly depopulated and the trains go loaded with household and nearly every other description of goods, including negroes.
